

# MAINTENANCE ADVANTAGE™

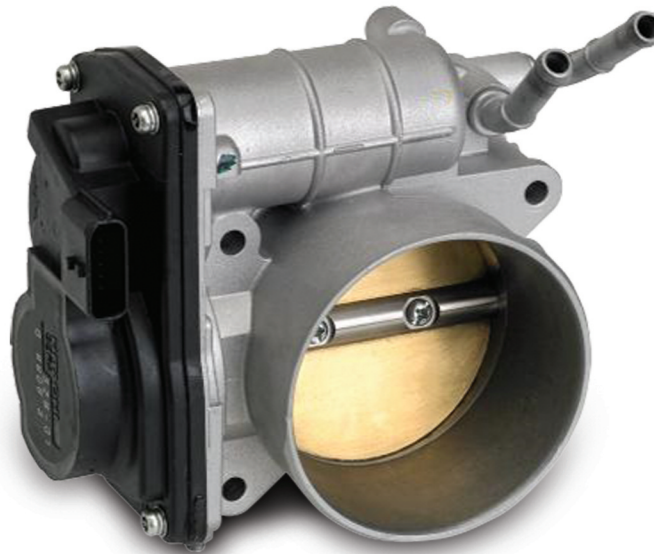

## INFINITI

### INFINITI REMANUFACTURED PARTS

Every INFINITI-validated Remanufactured Part goes through a multi-step remanufacturing process that ensures quality control at every stage of cleaning, inspection and assembly. INFINITI Remanufactured Parts are built with components that are gauged, sorted, tested and renewed to INFINITI quality specifications and include vital new components.

#### ELECTRONIC THROTTLE BODIES

- Produced using INFINITI approved components and procedures
- Computerized testing of motor, throttle position sensor and articulation
- Testing ensures reliable and consistent performance to meet INFINITI specifications
- Every component is inspected, remanufactured or replaced ensuring a durable, high-quality product
- Cleaning process prevents the throttle bore surface from being damaged and ensures optimum airflow
- Remanufactured in the United States
